NOTES TO FINANCIAL STATEMENTS

Interim Financial Statements as at April 30, 2007
(unaudited)

1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles on a going concern basis which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future.

The Company has incurred significant losses since incorporation and as at April 30, 2007, the Company has an accumulated deficit of \$4,763,270. The Company's ability to continue as a going concern is dependant upon achieving profitable operations, the continued financial support of its lenders and the ability to obtain additional debt or equity financing. The outcome of these matters cannot be predicted at this time. These financial statements do not include any adjustment to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business. Such adjustments could be material.

These unaudited interim financial statements should be read in conjunction with the October 31, 2006 annual financial statements. The same accounting policies and methods are used as in the 2006 financial statements. In management's opinion, the interim financial statements include all adjustments necessary to present fairly such interim financial statements.

2. CHANGES IN ACCOUNTING POLICIES

New Accounting Policies

Effective January 1, 2007, The Corporation adopted new recommendations of the Canadian Institute of Chartered Accountants ("CICA") under CICA Handbook Section 1530 Comprehensive Income, Section 3251 Equity, Section 3855 Financial Instruments – Recognition and Measurement, and Section 3861 Financial Instruments - Disclosure and Presentation. These new Handbook Sections apply to fiscal years beginning on or before October 1, 2006.

Comprehensive Income

Section 1530 establishes standards for the reporting of comprehensive income. The section defines other comprehensive income to include revenues, expenses, and gains and losses that, in accordance with primary sources of GAAP, are recognized in comprehensive income but excluded from net income. The adoption of Section 1530 did not have any impact on the Company's financial statement presentation for the current period.

Equity

Section 3251 establishes standards for the presentation of equity and changes in equity during the current period. The requirements in this section are in addition to those of Section 1530 and recommend that an enterprise should present separately the following components of equity: retained earnings, accumulated other comprehensive income, the total for retained earnings or deficit and accumulated other comprehensive income, contributed surplus, share capital, and reserves. The Company currently has no other comprehensive income components.

Financial Instruments

Under Section 3855, all financial instruments are classified into one of five categories: held for trading, held-to-maturity investments, loans and receivables, available-for-sale financial assets or other financial liabilities. All financial instruments and derivatives are measured in the balance sheet at fair value, except

for loans and receivables, held-to-maturity investments, and other financial liabilities which are measured at amortized cost. Subsequent measurement and changes in fair value will depend on their initial classification. Held for trading financial instruments are measured at fair value and changes in fair value are recognized in net loss. Available-for-sale financial instruments are measured at fair value with changes in fair value recorded on other comprehensive loss until the instrument is derecognized or impaired.

As a result of the adoption of Section 3855, the Company has classified its cash as held for trading. Accounts receivable are classified as loans and receivables. Accounts payable and accrued liabilities and notes payable are classified as other liabilities, all of which are measured at amortized cost.

Initial public offering

On December 29, 2006, the Company raised \$1,403,750 from an initial public offering of 2,807,500 Units at a price of \$0.50 per Unit, net of offering costs of \$470,263. Each Unit consisted of one Class A common share and one half of a common share purchase warrant. Each whole common share purchase warrant entitles the holder thereof to acquire one Class A common share at an exercise price of \$0.60 for 12 months from the date of closing of the offering and at a price of \$0.75 for the period commencing 12 months and a day to 24 months from the date of closing of the offering.

In connection with the offering the agent received 280,750 non-transferable compensation options entitling the holder to purchase up to 280,750 Units at a price of \$0.50 for a period of 24 months from the offering's closing date.

Warrants

At April 30, 2007 the Company had 2,424,431 (2006 – 744,931) common share purchase warrants outstanding, as follows:

Exercise price \$	Expiry date	Number outstanding and exercisable
0.60 - 0.70	December 31, 2007	586,876
0.65	January – October 2008	34,555

0.50	December 28, 2008	280,750
		2,424,431

Share options

Pursuant to options that qualified for distribution pursuant to the prospectus, the Company granted during the six months ended April 30, 2007, 540,000 share options to directors and employees of the Company at an exercise price of \$0.50, which will expire 5 years from granting of the option. These options vest over a three year period with 230,000 options vesting in January 2007, 155,000 options vesting in December 2007 with the remaining 155,000 options vesting in December 2008. There were also 50,000 options that were cancelled due to the employment termination of an option holder and 50,000 options that were exercised during the period.

A compensation expense of \$87,522 was recognized during the period with an offsetting credit to contributed surplus. The fair value for the options issued were estimated on the grant date using the Black-Scholes options pricing model with the following assumptions being Risk-free interest rate at 4.5%, expected volatility being 90%, with an expected life of 5 years and a 0% expected dividend yield. Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.

The following table summarizes information about share options outstanding at April 30, 2007:

Exercise price \$	Year of grant	Number outstanding and exercisable	Weighted-average remaining contractual life [years]	Weighted-average exercise price \$

7. GOVERNMENT ASSISTANCE

SDTC funding

During 2006 the Company entered into a funding agreement with Canada Foundation for Sustainable Development Technology (“SDTC”) for the purpose of fostering the development and adoption of technologies that contribute to a sustainable development technology infrastructure in Canada by contributing to the rapid development, demonstration and pre-commercialization of technological solutions which address climate change and air quality. Upon the Company attaining pre-determined milestones, SDTC will advance non-repayable funds totalling the lesser of \$650,000 and 24.77% of the eligible project costs, less 10% holdbacks on each advance. To-date, Milestone #1 has been earned and the Company has received \$137,835 (\$153,150 less 10% holdback) for this milestone. The Company also received an advance of \$391,320 (\$434,800 less 10% holdback for Milestone #2. As at April 30, 2007, the Company had earned \$418,360 of the Milestone #2 funding. The balance of \$16,440 has been recorded as deferred government assistance. Milestone #3 for field testing, in the amount of up to \$62,050 was claimed in June, 2007 and is waiting SDTC approval. During the six months ended April 30, 2007, \$142,390 [six months ended January 31, 2006 - \$nil] of SDTC funding has been included as a reduction of research and development costs.

Investment tax credits

As of November 1, 2006 the Company ceased to be considered a Canadian-Controlled Private Corporation for the purpose of earning refundable Investment Tax Credits (ITC’s). Instead, the Company will file ITC claims on qualified expenditures at a rate of 20% and will apply them in the future towards taxes payable.

IERD funding

During the year ended October 31, 2004, the Company qualified for funding under the Industry Energy Research and Development Program (IERD). Under this government funding program, IERD committed to advance Synodon an amount equal to 28% of eligible costs incurred, up to a maximum of \$600,000. If any other government assistance is received, then an adjustment will be made to the total contribution. A 10% holdback is withheld until final approval of completion of the project and has been included in accounts receivable.

9. RELATED PARTY TRANSACTIONS

Officers, directors and shareholders provided promissory notes as well as services to the Company through consulting and rental agreements. The related party transactions occurred during the normal course of the Company's operations and are measured at their exchange amounts, which is the consideration amount established and agreed upon with the related parties.

- (a) The Company leased facilities from an officer who is also a shareholder. Total rental payments for the six-month period ended April 30, 2007 were \$3,000 [six-month period ended April 30, 2006 - \$1,500].
- (b) The Company incurred interest on promissory notes in the amount of \$3,677 during the six-month period ended April 30, 2007 [six-month period ended April 30, 2006 - \$2,025] payable to directors of the Company as noted in note 4.

10. SUBSEQUENT EVENTS

- (a) Long-term lease financing
The Company signed a lease agreement with Vencore Solutions LLC on May 8, 2007, based in the Portland, Oregon area, with respect to US\$385,000 in long-term lease financing. With the *realSens*[™] instrument manufacturing completed, these funds will be used to procure auxiliary equipment necessary for the helicopter installation of the system in anticipation of field trials this summer. The full funding of this facility is anticipated to occur by October 31, 2007. As part of the terms of the Lease Agreement, and subject to TSX Venture Exchange approval, Synodon will issue to Vencore 66,000 warrants, exercisable at \$0.65 Cdn and with a term of two years.

(b) Private Placement

Synodon Inc. is undertaking a non-brokered private placement whereby the Corporation intends to issue up to 2,000,000 units at a price of \$0.55 per unit (the "Units") for gross proceeds of \$1,100,000. The Units will be comprised of one Class A common share and one half of one common share purchase warrant (the "Warrants"). Each whole Warrant will entitle the holder to purchase one additional Class A common share of the Corporation at a price of \$0.80 per share for a period of two years from the date of issue. The Corporation will pay, where appropriate, a cash finder's fee of up to 10% in connection with the sale of the Units and issue finder's warrants of up to 10% of the total number of Units issued under this offering. Each finder's fee warrant will entitle the holder to subscribe for one Class A Common share of the Corporation at a price of \$0.55 for a period of two years from the date of issue.
