

Synodon Recognized as “Best Instrumentation Company” By Energy-TV Awards

For Immediate Release

Edmonton, Alberta – June 11, 2008 - Synodon Inc. (“Synodon”) [TSXV- SYD], today announced that the Company has been presented with Energy TV’s “Best Instrumentation Company” award. Synodon has been recognized for its breakthrough realSens™ airborne gas sensing technology and its impact on monitoring and helping mitigate emissions and leaks from the hydrocarbon industry. The Energy TV Awards, held in conjunction with the Global Petroleum Show in Calgary, showcases the nation’s oil and gas industry, including leading companies and technologies.

“Synodon’s realSens™ is revolutionizing the process of collecting data on gas leaks and emissions and then transforming this data into intelligence which industry can act on to mitigate and eliminate losses,” said Adrian Banica, Synodon President and CEO. “This award from Energy TV award for the Best Instrumentation Company is an honour to receive. For us, not only does it recognize the value of realSens™ to industry but also the superior achievements of our development team. I gratefully accept it on their and Synodon’s behalf.”

Synodon Inc. (www.synodon.com) is an Edmonton-based technology company which has developed and demonstrated an advanced airborne remote gas sensing system called *realSens™*, based on technologies developed under the Canadian Space Program and by Synodon scientists. The Company will provide gas emissions monitoring and quantification services to a variety of industries, including hydrocarbon (oil and gas), environmental, agricultural and for a variety of gases including methane, ethane and ammonia. The initial focus is on the hydrocarbon industry and in particular the natural gas pipeline sector.

Energy TV (www.energy-tv.com) is the first channel of its kind, presenting stories in a news magazine format to spotlight the companies, the people and the issues surrounding North America's primary industry: Oil & Gas. North America is fast becoming a global oil power and, as such, the dedicated programming launched by Energy TV is a channel whose time has come. Domestic and International companies will spend more than \$100 billion in oil sand production alone this year including upgrades to facilities, exploration and pipeline products throughout North America. Energy TV will be there to bring these stories to the forefront.
