

Synodon Signs 3-year Contract With Repeat Customer

For Immediate Release

Edmonton, Alberta – March 25, 2010 - Synodon Inc. ("Synodon") [TSXV-SYD], announces that it has signed a follow-on contract for a 3-year term to provide remote airborne ethane leak detection services to one of its Alberta based customers. During the term of the contract, Synodon will be responsible for surveying the entire network of this pipeline operator.

Adrian Banica, Synodon CEO said, "We are extremely pleased to receive this follow-on contract from one of our early customers. This was a direct result of an initial survey contract that Synodon completed in the last 6 months and proves the ability of our company to deliver a valuable survey service to pipeline operators. We are looking forward to working with our customer to ensure the integrity of their pipeline system".

Synodon Inc. (www.synodon.com) is an Edmonton based technology company which has developed and demonstrated an advanced airborne remote gas sensing system called *realSens*[™], based on technologies developed under the Canadian Space Program and by Synodon scientists. The company will provide gas emissions monitoring and quantification services to a variety of industries, including hydrocarbon (oil and gas), environmental, agricultural and for a variety of gases including methane, ethane and ammonia. The initial focus is on the hydrocarbon industry and in particular the natural gas pipeline sector.
