

Synodon Signs Contract with Terasen Gas

For Immediate Release

Edmonton, Alberta – November 15, 2010 - Synodon Inc. ("Synodon") [TSXV-SYD], announces that it has received an introductory survey contract from Terasen Gas Canada to provide remote airborne methane leak detection services within their network.

"We are pleased to welcome Terasen Gas as a customer for our realSens™ gas sensing services", said Adrian Banica, Chief Executive Officer of Synodon. "We are also very pleased with the response we received so far from the market, both from an adoption point of view as well as pricing. The vast majority of the contracts signed were within the range of commercial rates that our business plan called for".

The flights for Terasen Gas are scheduled to be completed before the end of the year.

Synodon Inc. (www.synodon.com) is an Edmonton based technology company which has developed and demonstrated an advanced airborne remote gas sensing system called *realSens*™, based on technologies developed under the Canadian Space Program and by Synodon scientists. The company provides gas emissions monitoring and quantification services to a variety of industries, including hydrocarbon (oil and gas), environmental, agricultural and for a variety of gases including methane, ethane and ammonia. The initial focus is on the hydrocarbon industry and in particular the natural gas pipeline sector.
